

Sign the petition at wwf.gr/ptolemaida5en

Earth Hour is the biggest global campaign calling people around the world to join forces for the protection of our planet. This year, WWF Greece takes us beyond the hour for which we switch off the lights on March 29, at 20:30. By signing this petition we say No to coal; it causes serious health problems, speeds up climate change and negatively impacts Greece's economy.

Join us now and make change a reality!
